

Nehorai Hadad / AI & Full-Stack Software Engineer

054-740-1660 / nehorai.hadad@gmail.com / [LinkedIn](#) / [Github](#)

Profile

- **AI & Full-Stack Engineer with 4+ years building automation platforms and AI-integrated applications**
 - **Hands-on with Python, React/Next.js, Flask, Docker, Linux, LLM Integration, RAG and Vector Search**
 - Former Data Center Consultant in IDF/IAF environments across Cisco, HP, and IBM servers
 - Builds AI Agents, Agentic Workflows, MCP Tool Calling, Prompt Engineering and automation flows
 - Tech Stack: Python, React, Next.js, Flask, Docker, AWS, Linux, pgvector, Qdrant
-

Work Experience

Full-Stack & AI Developer | Nemesh | 2025 - Present

- Developing full-stack applications using React, Next.js, Node.js, and Python.
- Building AI agents and automation workflows with Claude Code, n8n, Gemini, OpenAI, and MCP.
- Designing AI-assisted solutions for clients and personal projects with LLM integrations and task automation.
- Built a RAG proof-of-concept with ingestion, chunking, embeddings, indexing, retrieval, pgvector and Qdrant.

Full Stack Engineer | [Startica LTD](#) | 2024 - 2025

- *Built an end-to-end automation hub using **Python Flask** and **JavaScript**, consolidating internal tooling and operational **workflows**.*
- *Automated firmware upgrade **pipelines** for **Cisco servers**, improving consistency across upgrade processes.*
- *Created a **shift management system** with **Outlook integration**, handling team constraints and scheduling conflicts*
- *Built a **ghost server detection tool** scanning IP segments to identify unmanaged servers*
- *Tech Stack: Python, Flask, JavaScript, Cisco, Outlook API, Local LLMs*

Senior Data Center & Automation Consultant | [Startica LTD](#) | 2023 - 2024

- *Architected full-stack automation tools with **Python** and **Flask**, streamlining **Cisco firmware** upgrades*
- *Managed **high-security data center** environments, ensuring **reliable** uptime via automated monitoring*
- *Engineered custom **technical solutions** optimizing data center operations and hardware lifecycle*

Data Center Consultant | [IAF \(Israeli Air Force\)](#) | 2017 - 2023

- *Managed large-scale **military data center operations**, specializing in **HP, IBM, and Cisco** configuration*
 - *Operated enterprise management tools, including **ILO, OA, IMM, and CIMC**, for mission-critical infrastructure*
-

AI Engineering Projects

[Agendo](#) | [Multi-Agent Orchestration, MCP, Next.js 16](#) | 2026 - Today

- *Built a **self-hosted control plane** for AI coding **agents** with Claude, Codex, Gemini, Copilot, and OpenCode*
- *Engineered **protocol-specific adapters** unifying Claude SDK, Codex JSON-RPC, and ACP (gemini, copilot) into a single pipeline*
- *Designed event architecture using **PostgreSQL LISTEN/NOTIFY** with session state surviving browser disconnects*

- Integrated **MCP server** enabling agents to autonomously create tasks, spawn sub-agents, persist state
- Tech Stack: Next.js 16, React 19, TypeScript, PostgreSQL 17, MCP SDK, Claude Agent SDK, ACP, SSE

[Story-Creator](#) | [GenAI](#), [Next.js 16](#), [Firebase](#), [LLMs](#) | 2026 - Today

- Shipped **end-to-end GenAI storybook platform** turning a child's photo into a personalized illustrated book via AI
- Designed a **two-stage image generation pipeline** producing character templates before batch generation
- Implemented **atomic reserve-execute-commit credits system** with Hebrew/English RTL and Firestore
- Tech Stack: Next.js 16, React 19, Firebase Firestore, Google Gemini, NextAuth.js, Tailwind CSS 4, Vitest, Playwright

Skills and Tools

- **AI & LLM:** LLM Integration, RAG, Embeddings, Vector Search, pgvector, Qdrant, AI Agents, MCP, Tool Calling, Prompt Engineering
- **Development:** React, Next.js, JavaScript, TypeScript, Python, Flask, Node.js, REST APIs, Microservices
- **DevOps & Cloud:** Linux, Docker, Git, AWS, GCP/Firebase, CI/CD
- **Infrastructure:** Data Center Management, Cisco Systems, HP/IBM Hardware, Firmware Workflows, Monitoring, Network Automation

Languages

English: Advanced | **Hebrew:** Fluent
